

Capitol Services Acquires Wolz Corporate USA

Expands Capitol's Scale, While Preserving Wolz Client Relationships and Enhancing Service

August 12, 2026

Clearview Capital Fund IV, L.P. and its affiliates ("Fund IV") and Clearview Capital Fund V, L.P. and its affiliates ("Fund V") announced today the acquisition of Wolz Corporate USA ("Wolz" or the "Company") by its portfolio company Capitol Services ("Capitol"). The transaction closed earlier this year, uniting two corporate services organizations that share a common philosophy built on accessibility, reliability, and trust.

Headquartered in Denver, Colorado, Wolz is a founder-led organization providing lien, corporate, and other compliance services to clients nationwide. Prioritizing continuity, founder Eric Wolz will remain actively involved throughout a transition period, and the entire Wolz team has joined Capitol. Behind the scenes, Capitol will bring additional technology and operational depth to support Wolz's personalized approach to client service.

For Capitol, the acquisition adds an established nationwide client base, deepens its bench of experienced corporate services professionals, and strengthens its presence in Colorado and the broader Rocky Mountain region, further extending Capitol's national platform serving law firms and corporate clients.

“

After nearly thirty years, I've decided the time is right for me to step into retirement, and it was essential to me that this next step be done the right way. I've known Capitol Services and their CEO, Kevin Roberts, for many years. Capitol shares a philosophy I've always believed in at Wolz: you should be able to work with the people you trust.”

Eric Wolz, Founder of Wolz Corporate USA

“We have tremendous respect for what Eric and the Wolz team built in Denver over the past three decades, and we're honored they've chosen to join Capitol Services. For nearly 50 years we've grown by investing in the people who serve our clients – the same foundation Eric built – and we'll bring added scale, technology, and national reach to serve Wolz clients even better over time.

Kevin Roberts, Chief Executive Officer of Capitol Services

”
